Subject Index

January-February pp. 1-56

March-April pp. 57-124

May-June pp. 125-196

July-August pp. 197-262

September-October pp. 263-334

November-December pp. 335-404

A

ABO typing 47
ABO typing error due to acriflavin 254
A-B-H specificities 235
A-B-O blood groups 226
ACD and adenine 1
Acid-elution technic of Kleihauer 381
Acidification of plasma 289
Acriflavin causing error in ABO typing 254
Adenine 1
ADP aggregation, adapted from method of Miguel Pavlovsky 154
Agglomeration of human red cells 9
Agglutination of RBC, quantitative, using antiglobulin reaction 269
mixed 244
technic of Fuchs 381
Albumin loss from vascular bed 197
Amniocentesis 381
Amnion cells, detection and characterization of blood group antigens on untransformed human 244
Amniotic epithelial cells 381
Anti-A and anti-B agglutinins after immunization, relation to Lewis types 172
Anti-B lectins 44
Antibody detection 47, 372
effect of passive, enhanced immunological response 134
screening, importance of 123
suppression of 134
synthesis of 127
Anti-C, naturally-occurring 387
Anticoagulant effects 154
Anti-γ-globulins 343
Antiglobulin reaction, use in quantitative RBC agglutination 269
test of 47
test of following methyldopa therapy 84
Anti-H isoagglutinin characteristics 368
Anti-Rh γ-globulin 343
Anti-T 109
Arachis hypogoea 109
Ascorbic acid and ^{51}chromium labeling of red cells 210
A-substance, excess in plasma 179
A_3 37
Augmented immunological response, effect of passive antibody 134
Autologous blood transfusions 111
Automated antibody detection 372
Autotransfusions 111
A_x 37

B

Bacterial contamination of blood samples 109
Bantu, Lewis groups and secretion in 283
Blood
bank inventory 19
group specific substances of, immune response associated with Lewis types 172
preservation of 1
transfusion and total volume of 197
typing of 47
volume studies of in autotransfusion patients 111
Body hematocrit/venous hematocrit ratio and variability of 197
B red cell antigens of South African Caucasian, Bantu and Asiatic donors 277
Bromelin treatment of red blood cells 39

C

Cadaver blood 250
Carcinoma, gastric, and excess plasma substances 179
Catfish, hemagglutinins in 226
Cell washing solutions 299
Centrifugation of blood 94
Centrifuge 49
bowls, description and operation of apparatus 154
^{51}Cr 28, 197
preferential labeling with, uptake and Na_2 EDTA, uptake, effect of free hemoglobin on 210
red cell circulatory viability 154
Clot retraction: method of Budtz-Olsen 154
Compatibility tests for red cell survival 28
Computer simulation 335
Continuous centrifugal flow cell washing 299
Control of antibody suppression 127
CPD
and adenine 1
effect of transportation on blood stored in 165
versus ACD 154
Cryoprecipitate, effect of additional ACD on Factor VIII recovery *in vivo* 294

D

Deglycerolization of erythrocytes 299
Dialysis for precipitation of plasma A antigen . 388
Differential agglutination
antibodies for, automated and manual methods for, for determination of mean life span of transfused red cells 65
automated method 74

calculation of nonviable and viable red cells ... 74
Disposable test tubes ... 55
Donor effects ... 154
Dye T-1824 ... 197

E

Evonymus lectins ... 44

F

Factor VIII, reduced activity in cryoprecipitates from acidified plasma ... 294
Fetal cell typing ... 381
Free fatty acids ... 92
Frozen red cells, loss *in vitro* after thawprocess ... 74

Transfusion ... 197
of cadaver blood ... 250
history of ... 124
Transportation, effect on CPD blood ... 165
T-receptor ... 109
Twenty-eight day blood ... 19

V

Viral infection, polyagglutination of red cells associated with ... 109

W

Waldenström's macroglobulinemia ... 174
Washing
of glycerolized red cells with ionic and non-ionic solutions ... 9
of red cells ... 299, 348

Abstracts

Blood Donors

Fainting: A review of its mechanisms and a study in blood donors, by P. P. Ruetz *et al.*. 259

Blood Groups and Antibodies

Agglutinating specificity for LW factor in guinea pig and rabbit anti-Rh serums, by P. Levine and M. J. Celano 190

Another example of "naturally-occurring" anti-K1, by J. Tegoli *et al.* 118

Anti-A and anti-B antibodies in children (letter), by O. T. Gartner *et al.* 52

Anti-E antibodies disclosed in the period 1960-1966, by E. Dybkjaer 190

Anti-IB, and expected "new" antibody detecting a joint product of the *I* and *B* genes, by J. Tegoli *et al.* 259

Anti-i: Identification of the "nonspecific" cold-agglutinin, by C. A. Bell *et al.* 260

An Rh gene complex producing weak c and E antigens, by L. Kornstadt and R. Øyen .. 261

Cell surfaces, blood groups and microorganisms, by P. J. Schmidt and M. H. McGinniss 260

Changes in erythrocyte I agglutinogen and anti-I agglutinins during *mycoplasma pneumoniae* infection in man, by C. B. Smith *et al.* 260

Crossreacting antibody and saliva agglutinins, by R. Jacabowicz *et al.* 117

Distribution of the human Rh_o(D) antigen in the red cells on non-human primates, by S. P. Masouredis *et al.* 190

Frequency of occurrence on the human *Rh* complexes *D* (*C*) (*e*), *d* (*c*) (*e*), *D*- - and - - -, by M. Rasmuson and A. Heinken 261

Further examples of Jk(a—b—) blood in Hawaii, by M. Yokoyama *et al.* 261

Immunochemical studies on lectins. II. A quantitative study of the reaction of lectins with human erythrocytes, by J. T. Miller *et al.* .. 396

In vitro transformation of the Lewis blood groups of erythrocytes, by O. Mäkelä *et al.* 306

Isohemagglutinins in pooled plasma (letter), by K. B. McCall 117

Isohemagglutinins in pooled plasma, by M. R. Rymer and J. B. Alsever 259

Lambda chains in cold agglutinins, by T. Feizi 260

Military blood banking—identification of the group O universal donor for transfusion of A, B and AB recipients—an enigma of two decades, by F. C. Camp, Jr. and C. E. Shields 189

Monotypic cold agglutinins in infection by *mycoplasma pneumoniae*, by T. Feizi 260

Multiple phenotype abnormalities associated with Rh_{null} (- - -/- - -), by P. J. Schmidt and G. H. Vos 190

Nomenclature of the blood groups with special reference to the Rh-Hr blood types, by A. S. Wiener 117

Observations on the blood group receptor P_1 and its development in children, by A. Heiken 260

Physicochemical and immunologic properties of eluates containing I-125 anti-Rh_o(D), by S. W. Fong and S. P. Masouredis 117

Prenatal T-transformation? A case of poly-agglutinable cord blood erythrocytes, by J. R. Jorgensen 191

Quantitative measurements concerning A and B antigen sites, by J. Economidou *et al.* 117

Relationship between Rh_o(D) zygosity and red cell Rh_o(D) antigen content in family members, by S. P. Masouredis *et al.* 260

Some cases of leukaemia with modifications of the D (Rh_o)-receptor, by A. Majsky 306

Standardización en immunohematología, by M. Palatnik 190

Testing of blood grouping cards under field-type conditions, by C. E. Shields and F. R. Camp 306

The binding of naturally occurring anti-B isohemagglutinins to the B antigens of human erythrocytes, by M. B. Gibbs and H. A. Toro 189

The current status of some blood group problems, by R. E. Rosenfield 52

The dependence of cold agglutinin activity on K chains, by N. Costea *et al.* 260

The first example of auto-anti-Xg^a, by M. Yokoyama *et al.* 261

The quantitative relationship of the Rh-like (LW) and D antigens of human erythrocytes, by M. B. Gibbs 52

Three examples of a new red cell antibody, anti-Co^a, by H. Heisto *et al.* 52

Two incomplete agglutinins associated with anti-Le^a in rabbit antisera against gum arabic, by S. Matsuzawa 190

Unusual suppression of secretion of blood group substance A, by J. Tegoli *et al.* 189

Blood Groups and Disease

ABO blood groups and thyrotoxicosis, by A. L. Macafee 53

Christmas disease, color-blindness and blood group Xg^a, by R. L. Wall *et al.* 193

Hereditary elliptocytosis: Linkage data in man, by R. A. Geerdink *et al.* 194

Letter to the Editor: Ichthyosis, Xg blood groups, and Protan, by A. Adam *et al.* 53

Relation of blood groups to infection. I. A survey and review of data suggesting possible relationship between malaria and blood groups, by B. H. Athreya and L. L. Coriell 393

The relation of blood groups and the secretor factor to amyotrophic lateral sclerosis, by N. C. Myrianthopoulos and W. C. Leyshon. 194

X-linked retinitis pigmentosa and linkage studies with the Xg blood-groups, by D. Klein *et al.* 193

Coagulation

Antihemophilic factor release by perfused liver and spleen: Relationship to hemophilia, by J. C. Norman *et al.* 396

Cryoprecipitate and the plastic blood-bag system: provision of adequate replacement therapy for routine treatment of haemophilia, by E. Bennett *et al.* 121
Prophylactic therapy in classical hemophilia: A preliminary report, by P. M. Robinson *et al.* 195
The preparation for therapeutic use of a concentrate of Factor IX containing also Factors II, VII, and X, by E. Bidwell *et al.* 396
Treatment of hemophilia with Factor VIII concentrates, by P. R. Dallman and J. G. Pool . 395

Extracorporeal Circulation

Acid-citrate-dextrose *vs.* heparinized whole blood prime. Use in cardiopulmonary bypass, by J. C. Bigelow *et al.* 305
Some hematologic aspects of prolonged blood pumping, by R. L. Replogle *et al.* 305

Hemolytic Anemia

Hemolytic anemia caused by penicillin. Report of a case in which antipenicillin antibodies cross-reacted with Cephalothin sodium, by L. W. Nesmith and J. W. Davis .. 261
Immunohemolytic anemia during therapy with methyldopa, by F. Murad 262
Melphalan (Alkeran®) erythrocyte agglutinin and hemolytic anemia, by M. E. Eyster 262

Hemolytic Disease

Acute hemolytic anemia associated with administration of alkylating agents. Report of two cases due to Cyclophosphamide and review of the literature, by H. M. Yonet *et al.* 52
Autoimmune hemolytic anemia: Clinical correlations and biological implications, by R. S. Schwartz and N. Costea 118
Enzyme reacting specific auto-antibodies in individuals showing no signs of auto-immune haemolytic anaemia, by E. Dybkjaer and F. Kissmeyer-Nielsen 191
Immune adherence and blood cell destruction, by J. J. van Loghem *et al.* 119
Immunological aspects of red cell injury in man, by J. P. Leddy 118
Light chains in chronic cold haemagglutinin disease, by A. G. Cooper and S. M. Worlledge 191
Membrane destruction in paroxysmal cold hemoglobinuria, by J. G. Scott *et al.* 191
Paroxysmal cold haemoglobinuria and measles, by J. O'Neill and W. C. Marshall 191
The cold hemagglutinin disease, by H. Schubothe 119
The direct antiglobulin (Coombs') test in hypertensive patients, by T. Feizi and D. Woodgate 52

Hemolytic Disease of the Newborn

Autohemolysis of cord blood in congenital spherocytosis and ABO incompatibility, by J. E. Kostinas *et al.* 307
Control of acidosis during exchange transfusion with citrated blood, by G. Gandy 268
Correlation of neonatal serum total bilirubin concentrations and developmental status at age eight months, by T. R. Boggs, Jr., *et al.* 121
Demonstration of Rh antigens in a 38-day-old fetus, by H. Berström *et al.* 307
Early neonatal jaundice and hyperbilirubinaemia and their relation to ABO incompatibility, by U. Furuhjelm *et al.* 192
Endogenous formation of carbon monoxide in newborn infants. II. Rh haemolytic disease of the newborn, by S. P. Fällström and J. Bjere 120
Estriol and Rh isoimmunization: A new approach to the management to severely affected pregnancies, by A. E. Schindler *et al.* 53
Experience with a new isovolumetric exchange transfusion method, by G. J. A. Cropp 120
Follow-up study of exchange transfusion for hyperbilirubinemia in infants in Japan, by T. Ose *et al.* 121
Hemoglobinuria associated with hemolytic disease of the newborn infant, by J. J. Angella *et al.* 120
Mortality risk of exchange transfusion, by V. V. Weldon and G. B. Odell 308
On the pathogenesis of ABO erythroblastosis: Demonstration of quantitative variations in the power of neonatal erythrocytes to combine with antibody, using the immuno-fluorescent technique, by K. Fischer and N. Stege 53
Prevention of Rh-haemolytic disease, by C. A. Clarke 306
Rh immunization. Its incidence, timing and relationship to fetal-maternal hemorrhage, by J. F. Sullivan *et al.* 307
Serum ionic magnesium in exchange transfusion, by P. C. Bajpai *et al.* 120
The amount of anti-D on red cells in haemolytic disease of the newborn, by N. C. Hughes-Jones *et al.* 53
The effect of buffered and non-buffered ACD blood and electrolyte and acid-base homeostasis during exchange transfusion, by W. E. Pierson *et al.* 308
The effect of exchange transfusion on the development of immunological factors, by Z. Nejedlá 52
The effect of external version on antenatal immunization by the Rh factor, by G. H. Vos 119
The pathogenesis and prevention of Rh immunization, by A. Zipursky and L. G. Israels .. 307
Umbilical cord blood and capillary blood in the evaluation of anemia in erythroblastosis foetalis, by P. J. Moe 120

Immunology

Agglutinating activity of a healthy donor serum in the presence of albumin, by M. Yokoyama *et al.* 282
An evaluation of the 0.5% bromelin 9:1 serum-to-cell ratio technic, by L. V. Milner 193
Autohemagglutination by blister fluid, by R. V. McCloskey and C. M. Zmijewski 193
Compleat immunology: Science or septophrenia? by H. H. Fudenberg 122
Electron microscopic investigation of the binding of bromelin by erythrocytes, by L. P. Cawley and W. L. Goodwin 192

Factors influencing the agglutinability of red cells. III. Physico-chemical studies on ox red cells of different classes of agglutinability, by G. Uhlenbruck *et al.* 192
Ogata phenomenon explaining the unusual specificity in eluates from Coombs positive cells sensitized by autogenous anti-I, by J. M. Svardal *et al.* 288
Relationship of the anticomplement Coombs test to the classes of immunoglobulins, by W. R. Hudgins *et al.* 192
Salivary immunoglobulins: Absence of γA in saliva following exchange transfusions in the newborn period, by J. C. Selner *et al.* 122

Leukocytes

A and H antigens on leucocytes, by L. L. Flory 195

Miscellaneous

Active infusion therapy of patients with extensive, deep burns, by N. I. Atyasov 196
A semi-microtechnic for the detection of human blood group isohemagglutinins, by R. V. McCloskey and C. M. Zmijewski 54
Chimpanzee red cell isoantibody of a "new" specificity, anti-K^c, produced by cross-immunization of Chimpanzees with human blood, by A. S. Wiener *et al.* 258
Étude sur l'épidémiologie de l'hépatite virale post-transfusionelle dans la région Parisienne de 1960 a 1966, by J. Chevallier and M. Durand 259
Exchange transfusion in the treatment of hepatic coma, by J. S. Zacarías *et al.* 196
Evaluation of the plasmacrit test for use as a screen test for syphilis, by C. E. Bushbee . 259
Inhibition of the anti-globulin reaction by non-specifically cell-bound human γG-immunoglobulin, by P. J. Grob *et al.* 55
Intensive transfusion therapy in thalassemia major, by M. E. J. Beard, *et al.* 196
Results of analysis of the causes of delayed blood regeneration in donors, by P. M. Alperin *et al.* 122
Studies on agglutination by macromolecular antibodies. III. Agglutination by immune antibodies, by O. Tönder 55
The union of the Red Cross and Red Crescent societies of the U.S.S.R. and the country's blood service, by A. E. Kisselev and A. A. Lipats 55

Serum Proteins

Anti-Gm antibodies produced in the fetus presumably as a result of immunization with maternal Gm antigen, by A. Luczkiewicz-Mulczykowa 395
Antitoxic and antiviral antibodies in Cohn fractions of human plasma, by R. H. Painter, *et al.* 395
Detection of genetic antigens utilizing gamma globulins coupled to red blood cells, by J. B. Natvig and H. G. Kunkel 122
Intravenous gamma globulin, metabolism of gamma globulin fragments in normal and agammaglobulinemic persons, by C. A. Janeway *et al.* 394
Metabolism of albumin and γ-globulin during albumin infusions and during plasmapheresis, by S. B. Andersen and N. Rossing 395
Plasma infusions in immunologic deficiency states: Metabolic and therapeutic studies, by E. R. Stiehm *et al.* 121

Storage and Transfusion

A biological test for injury of the human red cell, by A. E. Stuart and R. A. Cumming .. 195
Blood exchange in the treatment of hepatic coma, by R. L. Berger *et al.* 304
Calcium, phosphorus, and fatty acids in plasma stored at room temperature, by Y. Gabr, *et al.* 304
Evaluation of a stroma-free hemoglobin solution for use as a plasma expander, by S. F. Rabiner *et al.* 303
Frozen blood: Principles of practical preservation, by C. E. Huggins 54
Hydroxyethyl starch: Extracellular cryophylactic agent for erythrocytes, by C. T. Knorpp *et al.* 195
Increasing the effectiveness and utilization of human blood by differential storage, by T. E. Allen *et al.* 195
Indications and effects of exchange transfusion in adults in gynaecology and obstetrics, by R. H. Philpott *et al.* 305
Renal failure associated with low-molecular-weight dextran infusion, by T. O. Morgan *et al.* 305
Studies on the preservation of human blood. II. The relationship of erythrocyte adenosine triphosphate levels and other *in vitro* measures to red cell storageability, by R. J. Dern *et al.* 53
Temperature dependence of sodium-potassium activated erythrocyte adenosine triphosphatase, by L. Wood and E. Beutler 194
The antigenicity of hydroxyethyl starch in humans. Studies in seven normal volunteers, by R. D. Brickman *et al.* 305
The metabolism of the erythrocyte. XVII. Mechanism of incorporation of adenine into and resultant elevation of ATP and ADP in human erythrocytes, by S. V. Manohar *et al.* 194

Transfusion Reactions

Fatal transfusion reaction due to *Serratia marcescens*, by W. A. Black *et al.* 396
Graft-vs-host reaction following a single blood transfusion, by W. E. Hathaway *et al.* 262
Hepatitis complicating chronic haemodialysis, by E. A. Friedman and G. E. Thomson 262
Pathogenesis of the acute renal failure associated with incompatible transfusion, by P. J. Schmidt and P. V. Holland 262
Serum immunoglobulin levels in blood donors implicated in transmission of hepatitis, by G. Bevan *et al.* 304
The use of gamma globulin in the prophylaxis of transfusion hepatitis, by W. Creutzfeldt *et al.* 194
Transfusion hepatitis arising from addict blood donors, by S. N. Cohen and W. J. Dougherty 396

White Cells

Defined leukocyte antigens of chimpanzees: Use of chimpanzee isoantisera for leukocyte typing in man, by H. Balner *et al.* 394

Hemagglutination by human anti-leukocyte serums, by R. E. Rosenfield *et al.* 394

Heterophile antibodies in human transplantation, by F. T. Rapaport *et al.* 394

White Cells and Platelets

The favorable effect of ACD on the viability of fresh and stored human platelets, by F. S. Morrison and M. Baldini 54

Thrombocytopenia due to quinidine or quinine. Report on a series of 28 patients, by Ch.M. van der Weerdt 54

White blood cell transfusions, by L. Schwarzenberg *et al.* 54

Book Reviews

Advances in Immunogenetics, by T. J. Greenwalt 258

Clinical Hematology, 6th Ed., by M. M. Wintrobe 188

Diagnosis and Treatment of Hemophilia, A Practical Guide, by H. S. Strauss 189

Essentials of Blood Grouping and Clinical Applications, by K. S. Ranganathan 116

Human Transplantation, by F. T. Rapaport and J. Dausset, Editors 393

Laboratory Evaluation of Hemostasis, by M. S. Sirridge 51

Laboratory Medicine—Hematology, 3rd Ed., by John B. Miale 392

The Gift of Life. The Story of Blood Transfusion and the Blood Groups, by P. Brain ... 51

The Use of Antibodies in the Study of Blood Coagulation, by K. W. E. Denson 117
